The list of questions provided structure to the conversation, but allowed enough flexibility for respondents to focus on their areas of expertise. To develop the interview protocol, we reviewed MedPAC staff papers, recent articles in trade newsletters, and relevant reports from the General Accounting Office and the HHS Office of the Inspector General. The lead interviewer started each conversation with a brief review of the project. On most of the interviews additional senior team members listened in and participated in the questioning. The team reviewed the interview notes and conducted informal content...
