RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 140 pages. Original publisher: Boulder, Colo. : U. S. Dept. of Commerce, National Oceanic and Atmospheric Administration, Earth System Research Laboratory, Physical Sciences Division, 2008. OCLC Number: (OCoLC)729901511 Subject: Icing (Meteorology) -- Remote sensing. Excerpt: . . . limits of tolerance. But it is almost certain that the delivered antenna and the transmitted state of polarization will be imperfect, and will therefore advantageously demonstrate a slightly modified ellipticity. As part of the radar calibration, it will be necessary to measure the actual transmitted polarization state (i. e. , its ellipticity) and the antennas polarization cross-talk, and use those values to optimize the decision points in the icing algorithm. 2. 2 Dual-Channel Radiometer GRIDS primary function is the detection of the presence of liquid water (LW) in quantities above a meaningful threshold, and in drop sizes of 50 - 500 microns and smaller. For GRIDS, the radar is the primary observing instrument for determining cloud particle type and identifying clouds of droplets, but it alone cannot make all necessary observations. Also required is a means to remotely sense the quantity of liquid water in the...

Reviews

An extremely wonderful book with lucid and perfect information. It is one of the most awesome publication i have read. Your life period will probably be enhance the instant you total looking at this pdf.

-- Prof. Dan Windler MD

It is really an amazing publication i actually have at any time read. It is really simplistic but unexpected situations inside the 50 percent of your pdf. Its been written in an exceptionally simple way in fact it is just right after i finished reading this ebook where actually transformed me, alter the way i really believe.

-- Dr. Celestino Spinka III
